

COMPANY OVERVIEW

Cygnets Security is a specialist cybersecurity consultancy delivering bespoke security strategy, risk management, and technical assurance to government, enterprise, and regulated industry. Founded in 2018 by Ryan Ward-McConville, a security leader with over a decade advising executive teams across financial services, public sector, and global enterprise.

Every engagement is delivered personally by Ryan. No account managers, no handoffs, and no junior resources. Clients work directly with a senior practitioner from initial scoping through to delivery.
